

A R A MIRUNALINI

[Leetcode](#) | [HackerRank](#) | [Github](#)

SKILLS

PROGRAMMING | Python • SQL

DATA & ML | Pandas • NumPy • scikit-learn • Matplotlib

DATA ENGINEERING | ETL Pipelines • Data Modeling • SQL Server

WEB DEVELOPMENT | HTML • CSS • Flask (Basics)

TOOLS | Git • Jupyter Notebook

PROJECTS

End-to-End Data Warehouse & Analytics System

- Built a structured data warehouse to support analytical reporting using ERP and CRM-style datasets
- Designed a Bronze–Silver–Gold architecture using SQL Server and implemented ETL pipelines for data transformation
- Modeled a star schema to optimize querying and enable efficient business insights

End-to-End Machine Learning Pipeline

- Developed a complete ML pipeline for solving a classification problem using structured data
- Performed data preprocessing, feature engineering, and trained models using scikit-learn
- Evaluated model performance using accuracy metrics and confusion matrix, ensuring reproducibility

RxRead — AI Prescription Reader

- Engineered an AI-powered healthcare application that analyzes medical prescriptions and generates structured medication insights in English, Tamil, and Telugu.
- Developed the full-stack solution using Flask, SQLite, HTML, CSS, and JavaScript, integrating Claude AI for prescription understanding and medicine-related assistance.
- Added multilingual voice readout, scan history tracking, user authentication, and prescription management features to improve accessibility and user experience

EDUCATION

🎓 SCSVMV - University

B.E. Computer Science (AIML)
SCSVMV University
CGPA: 9.0

🎓 IIT - Madras

BS in Data Science and
Applications
Diploma
2023 - present

COURSEWORK

- Machine Learning
- DBMS
- Statistics & Linear Algebra
- Mobile Application Dev

CERTIFICATIONS

- [IIT Madras BS Data Science \(Foundation Level\)](#)
- [HackerRank SQL Certification](#)

INTERESTS

- Self Improvement
- Learning Languages
- Traveling
